

BENNINGTON COLLEGE

Dear Employee,

Bennington College is continuing to explore ways in which we can enhance your health benefits because your health and safety are important to us. Through our partnership with edHEALTH, the College is able to offer the services of KnovaSolutions, a personal health service for eligible employees and dependents enrolled in our medical plan. KnovaSolutions provides individualized coaching through a comprehensive assessment of health conditions, medications, family/social support and work circumstances.

This is a free, voluntary program and a benefit designed to support and assist employees who are experiencing significant health challenges. KnovaSolutions can help you better understand and manage your medical care, treatments and medications, and navigate the healthcare system.

You are receiving this letter based on data collected from our health plan reflecting serious health conditions. KnovaSolutions will be in touch with you via email and phone to further explain services and answer questions. Please note that *the College is not privy to your individual health data and all individual health information reviewed by KnovaSolutions will remain confidential and will not be shared.*

Bennington strives to provide you with the tools you need to maximize your health. By providing the KnovaSolutions personal health services we remain committed to managing medical costs, while also investing in the long-term health and wellbeing of our employees.

We hope that you will take advantage of this service as we work toward strengthening our culture of wellness.
